Corda Polietileno

Polyethylene Rope (PE)

ENLEIA PE

Ø 3mm a 6mm

High-strength twisted polyethylene rope made of 3 strands. Lightweight, floating, and resistant to UV, abrasion, and moisture. Suitable for marine, fishing, and general-purpose applications.

Características	Composição	Construção
Absorção Água: 0%	100% Polyethylene Expresso em %	Construção em PE
• 0% water absorption • High resistance to oils and gas • Excellent UV resistance • Outstanding chemical resistance (acids) • Floats on water • Good abrasion resistance • Non-conductive and rot-proof		3-strand twisted polyethylene (PE) rope
Commercial, domestic, industrial, and agricultural uses. Ideal for mooring, general tying, packaging, and farming.		

Ø Diâmetro	Peso (g/m)	Carga de Rutura (kgf)
3,0	6,1	110
4,0	8,3	200
5,0	11,9	290
6,0	17,9	400
